

*The Original*

# Weaver Stand-Off Brackets

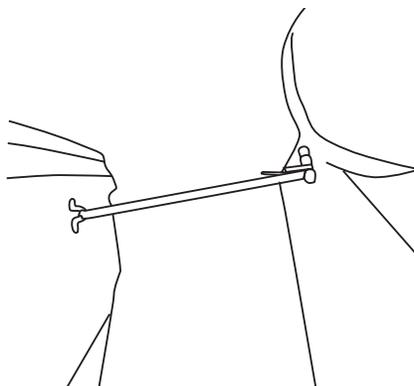

## MOUNTING INSTRUCTIONS

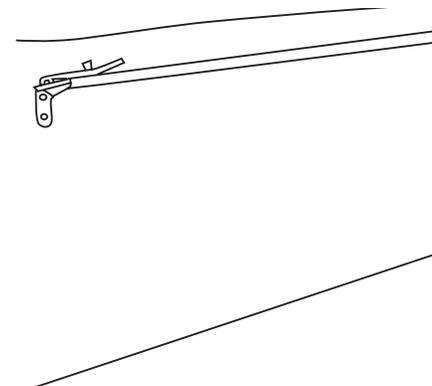

**Step 1** — Mount the brackets at a 10:00 and 2:00 o'clock position. This will provide rigidity for the dinghy. See above figure.

**Figure #1**

**Figure #2**

**Figure #3**

**Step 2** — Next mount the Stand-Off Clips to the dinghy and then mount the second set to the transom of the yacht. It is not recommended to put the clips on the top of the gunwhale. For inflatable boats, a rubber pad is mounted on the bow for attaching the Stand-Off clip. The Stand-off Clip can be mounted into wood or fiberglass transoms for the stern hook-up. See figures #1 and #2.

**Step 3** — The extra set of clips are provided so that when the dinghy is being used, the Stand-Off brackets can be snapped back to the transom of the boat. See figure #3.
