WEAVER SNAP DAVITS

For 8' & 10' Walker Bay Boats Mounting Instructions

- Step 1 - Unbolt the transom and center seat from the Walker Bay Dinghy, leave the seat there.
Step 2 - Match the seat pieces to the picture below. Bolt the seat brackets with supplied hardware. **(1/4"-20x2" Hex)**
Step 3 - Connect the center bar together as it is in the picture. **(5/16"-18x1 3/4" Hex)**
Step 4 - Mount arc receiver to center bar for the three holes. The first two are for dinghies that have tubes and the back two will be used if you have no tubes and bolt them down with the bolts supplied. **(5/16"-18x1 3/4" Hex)**
Step 5 - Rotate center bar to match receiver to which side you are putting the dinghy on (port or starboard).
Step 6 - Bolt the center bar. It needs to mount under the seat brackets. **(5/16"-18x1 1/4" Hex)**
Step 7 - Attach the Arcs to the receiver.
Step 8 - Bolt the davits (RS110) on the swim platform to match the hook ups on the Walker Bay Dinghy. **(1/4"-20x2" Pan Head)**
